

Public Transit Saves New Yorkers *Thousands*

Smart choices. Stronger communities. A better New York.

AALIYAH

RIDES TRANSIT

\$1.50 per ride
Affordable and predictable.

No parking.
No meters, garages, or surprise costs.

Saves \$13,000 annually
by not owning a car.

ZOE

DRIVES EVERY DAY

\$4+ per gallon
on gas

Stresses in traffic

Hunts for parking
in downtown Albany

Spends hundreds,
likely thousands,
on insurance
and repairs

Higher costs. More stress.
Less money for what matters.

More money in her pocket.
More time in her day.
A smarter way to get around.

Aaliyah also helps reduce congestion and lowers greenhouse gas emissions. Further, for every \$1 invested in public transportation, \$5 is generated in economic returns and provides Aaliyah with more reliability and choices.

To promote affordability, keep our communities connected and clean, and enable transit systems to maintain and expand service, additional state support is critical.

NYS must provide the following in the SFY 2027 final state budget:

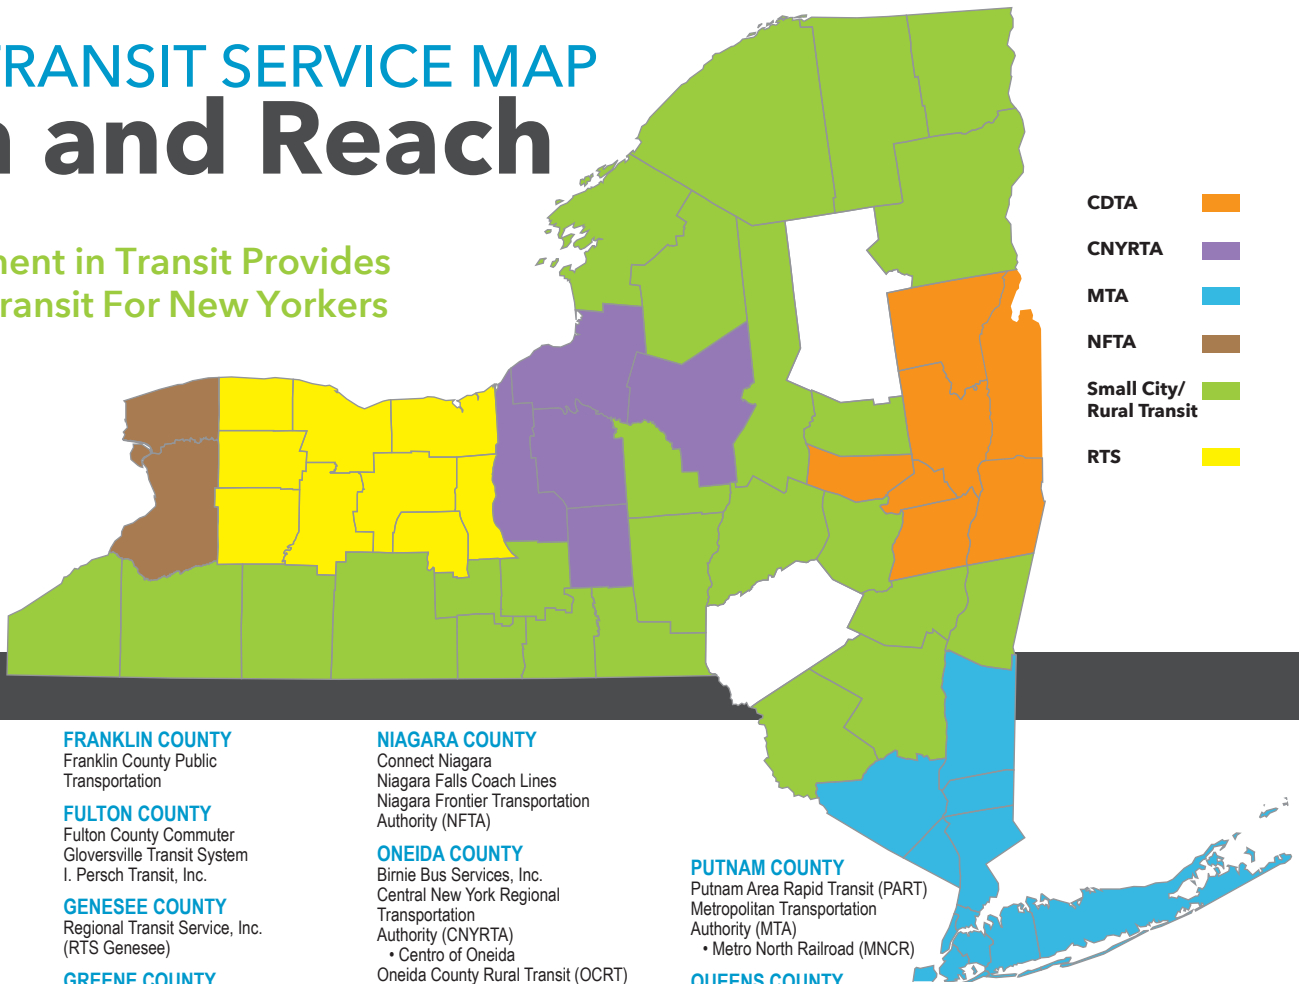

- Provide a 15% STOA increase for all upstate and downstate
- non-MTA transit systems; and
- Support \$349.5 million in non-MTA capital funding

For more information, visit the New York Public Transit Association online at:
